Check Out New Types of Blackjack

Our online casino blackjack game menu features a great number of different variations of this classic game. These new versions introduce new rules and exciting opportunities to increase your [online blackjack](#) fun-factor and earning potential! Below are some of our favourites, 21 Duel Blackjack and Lucky Blackjack.

21 Duel Blackjack

Mansioncasino.com's 21 Duel takes the classic game of Blackjack and ups the ante. Like the original Blackjack, you want the sum of your cards to be as close to 21 as possible, but it gives it a twist so that every time you play you have a better shot at winning the jackpot!

So how does one duel?

21 Duel Blackjack works like any Mansioncasino.com game, such as Craps, [Aussie slots machines](#) or Roulette, where you start by placing your bets. In this version of the game, one card will be facing you and the other will be facing down. The dealer's two cards are dealt facing the table and two more cards will be placed faced up in the middle of the table. The two cards in the middle of the table are called "community cards."

Now's when the action begins!

It's up to you to fold or to let the thrills continue and play. By folding, you quit that round and have to give up the money you bet but if you continue playing you have a second bet, and a chance to make a lot more money.

If you've decided to show your swordsmanship, and are continuing to play, then you will have to place a second bet. Now, it's up to you which one of the "community cards" to pick up and add to your hand. Once you have those three cards, you can choose if you want a "hit" or if you don't want any more cards and want to "stand." Once you make your decision, the game returns to being like regular Blackjack, as you win if you have the highest cards closest to 21; and if you go over 21, you have "busted" and have lost that round of cards. Players always reveal their cards before the Dealer.

Lucky Blackjack

Lucky Blackjack is an entirely different type of blackjack in that there are no cards dealt to the player. Only the dealer is dealt cards, and it's your job to guess the total value of the dealer's cards. It couldn't be simpler to play this game: simply place your bet and guess the dealer's
